TENNYSON NURSERY CO.

TENNYSON NURSERY CO., 2509 Humboldt Avenue, Fruitvale; two blocks west of 35th Avenue, between Brookdale Avenue and Davis Street, running parallel between 35th Avenue and Coolidge Avenue, Fruitvale. One acre of nursery stock, all sizes.

The Oakland Traction bus travels on 35th Avenue from East 14th to Hopkins Street. Get off bus at Deering Street, walk two short blocks west.

NOTE (Non-warranty)—While we exercise the greatest care to have all nursery stock good, thrifty and true to name, we do not give any warranty, expressed or implied, as to description, quality or productiveness or any other matter, of any trees, shrubs or plants they send out and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are to be returned immediately.

SERVICE—Although we have to protect ourselves as stated in the above sentence.

We have for our slogan the words, "Everything that grows," one may read this slogan two ways as, everything we sell grows and we sell everything that there is to be grown. Our stock is in such condition when sent out from our nursery, that we have every confidence in it to do its best and although we are not compelled to do any more than this, we have always taken a pride in replacing anything that did not grow with the usual care expected from the purchaser. With each purchase be sure to receive a receipt itemized, as this is our only way of knowing the size obtained and also makes it easy for us to replace.

Knowing how to do anything is very helpful and many times when in doubt we will say, "If I only knew how," so at any time you are in doubt about anything in Horticulture or Floraculture, please do not hesitate to phone us, and if we do not know we will be pleased to find out for you or tell you where you can get first class information.

VISITORS ALWAYS WELCOME.—These three words can not be expressed fully, as space is limited in this book, but the few words following will give an outline as to their meaning:

Our Nursery has been arranged to make it pleasing to the eye and also instructive. We keep it as clean and orderly as possible. The standard and new varieties of "Everything that grows," can be seen the year round, growing as specimens throughout the nursery, and at any time you are always welcome to call and we shall be pleased to show you and give you any information you desire. The pleasure you derive from a visit through the nursery gives us unbounded satisfaction.

FREE DELIVERY—Oakland, Alameda, Berkeley and Vicinity.

MAIL OR EXPRESS—Cost of baling or boxing, please add 15% for orders under \$5.00, and 10% for orders over \$5.00. All shipments travel at the risk and cost of the purchaser. Our responsibility ceases on delivery to carrier. Claims for any cause will receive consideration only when made within ten days after arrival of goods. In no case will we entertain claims made after goods have been once accepted.

In making our lists we do not enter every variety we have in stock; only the very best collection is entered. Any special variety can be ordered and if we do not have it, please mention if we can substitute with another similar variety.

Anything you do not see listed ask for. We possibly have it; if not, we might get it for you.

LANDSCAPE DEPARTMENT

Have you given any thought as yet to the laying out of the grounds surrounding your new home? Or perhaps it isn't a new home. Maybe you're just re-arranging the scenery of your home that has sheltered you for some time.

Possibly we can be of some help to you, give you a new idea or suggestion. We feel that our experience of twenty-five years qualifies us to offer such advice. Also the fact that we are proud to list among our clientele, Regillus Apartments, El Capitan Apartments, Associated Oil Co., Moore Shipbuilding Co., H. C. Capwell Co., Hotel Oakland, Fernside, Alameda, in addition to many other apartments and private homes.

We have given considerable study to the relation of growing things to special architecture, so if you are planning your home, or have already built it in any period design, we should appreciate very much an opportunity to discuss with you the appropriate shrubbery, flowers, trees, etc., to blend with your particular design. In this connection also, permit us to say that we shall be pleased at any time to submit detailed plans, however large or small your grounds may be.

"A thing well planned is half done."

We keep on hand a splendid assortment of potted plants at reasonable prices so that at any season of the year we are able to handle with ease and satisfaction any decorative effect you may wish.

Visitors always welcome to our nursery.

Sincerely,

TENNYSON NURSERY CO.

By Walter L. Bates, Manager

TENNYSON NURSERY CO.

Tennyson Nursery Company

Roses give best results when planted in a fairly sunny location and in good heavy sediment soil to which may be added some old manure or bone meal, but never use fresh manure. Before planting wet all roots and as the dirt is filled in see that it is well packed around them; this keeps out the air and encourages a new growth of rootlets. Then water well. Be sure that the Rose is planted down to the first joint, where it is budded.

. . . Pruning . . .

This should be done during the months of December, January and February; at that time the bushes are in a dormant condition. Cut just above a prominent but dormant bud that is pointing outward about two feet from the ground.

. . . Spraying . . .

VOLCK is a very splendid remedy to use as a general spray, such insects as Mealy Bug, Scale, Red Spider, and Leaf-mite, Aphids, etc., can not live after a thorough spraying. This is the spray we have been waiting for "A very long time." Do not be afraid to use it, it will not burn any foliage even if mixed stronger than directions. We suggest using warm water to spray with. For mildew, flower of sulphur sprinkled over infected parts twice a week will soon cure them. Don't water rose bushes in the evening. This causes mildew.

. . . Roses and Remarks . . .

We have not listed every rose known, but have taken pains to select the very best and most satisfactory varieties to date at our nursery. During April and May, every variety can be seen growing in its natural way, throughout the nursery. We also have a good collection potted that can be planted out into your garden any day in the year.

TENNYSON NURSERY CO.

NOVELTIES

1930 Introductions \$1.50 each

- LADY MARGARET STEWART—Deep sunflower-yellow in young stage heavily veined and splashed with orange-scarlet, developed flowers are cadmium-orange. Long pointed buds, mildew proof foliage.
 LORD CHARLEMONT—Brilliant glowing crimson with almost Black shadings. The most perfect red rose grown
 MARGARET McGREDY—Large semi-double blooms of orange-scarlet and oriental-red changing in the mature flowers to carmine-rose
 TALISMAN—The coloring is most unusual being a combination of gold, apricot, pink and old rose in mingled splashes, streaks and blends.
 CLIMBING CONSTANCE—Vigorous climber, long pointed, deep golden buds, opening to canary yellow. Long stems and positive mildew proof foliage.

SELECTED NEW AND RARE VARIETIES

\$1.00 each—not less than one doz., \$10.00

- ANGELE PERNET—Buds deep orange, semi-double blooms of brilliant tango, mildew proof foliage
 BETTY UPRICHARD—Inner face delicate salmon pink to carmine, outer petals glowing carmine and orange
 CUBA—Flowers are almost single, a brilliant bright vermilion scarlet, overlying orange
 DAME EDITH HELEN—Brilliant pink, long pointed buds strong grower with good foliage
 ELDORADO—Clear yellow, holds its color when fully open, very double, petals crinkled at center of bloom.
 INDEPENDENCE DAY—Flame tints overlying a bright apricot color, free flowing, mildew-proof foliage.
 JOHN RUSSELL—Rich velvety crimson upright stems; flowers very full and double food form.
 MRS. HENRY BOWLES—Rosy-pink, shaded, salmon orange, fragrant and free blooming
 MRS. WILL C. EGAN—Pink, large flowers, reverse soft light pink, interior deep flesh with a golden line at base of petals, blooms continually.
 QUEEN ALEXANDER—Intense vermilion, deeply shaded old gold on reverse of petals, color is improved if planted where there is a little shade.
 REV. F. PAGE ROBERTS—Long beautiful bud, full double flower, rich orange-gold shaded to saffron, yellow, strong and free bloomer.
 SHOT SILK—Color hard to describe; sort of an orange-cerise suffused with gold, flower very fragrant and produced freely
 SOUV De GEORGES PERNET—Large blooms of orient-red with carmine and yellow shadings
 SOUV De H. A. VERSCHUREN—Deep golden yellow double, intensely fragrant; long, strong stems.
 CLIMBING DUCHESS OF WELLINGTON—Long pointed buds, intense saffron-yellow flushed crimson.
 CLIMBING LOUISE C. BRESLEAU—Coral red, shaded with chrome yellow and other novel shades.
 CLIMBING ROSE MARIE—Rose-pink, no other climbing roses in pink color can surpass this creation in form, color, stem growth and habit.
 CLIMBING SOUV De CLAUD'S PERNET—Sunflower yellow, deeper in the center, free and continuous bloomer.
 CLIMBING SUNSTAR—Lemon yellow, every petal edged, veined and splashed with rose and vermilion, not very full, buds long, stems rigid.

MASTER LIST OF LATE INTRODUCTIONS

Roses 75c each; \$7.50 dozen; 6 at the dozen rate.

- AMERICA—Large, rose pink, sweetly scented, long stems, deep glossy green foliage

SEQUOIA—See Evergreen Trees, page 7.	
SCHINUS MOLLE—See Pepper Trees, page 7.	
THUYA (Arbor Vitae) GIGANTIA—One of our splendid native shrubs, used for porch pots as well as specimen on lawns, etc.....	.75, 1.00, 1.50; balled 2.00, 2.50, 3.50 up
THUYA ORIENTALIS—Golden globe-shaped.....	.75, 1.00, 1.50; balled 2.50 up
TRITOMA—Red Hot Poker35, .50, .75
VERONICA—We have about 15 varieties, all very fine, free bloomers, for quick growth and make quite a showing at little cost.....	.35, .50, .75 each; balled .50, .75, 1.00 (Quantities special price.)
VERONICA CHATAMICA—Dwarf spreading variety, small lilac colored flowers.	
VERONICA HULKEANA—Extremely showy, lilac flowers on slender terminal panicles.	
VERONICA ELLIPTICA—Flowers in loose spikes, violet purple.	
VERONICA DECUSSATA—Violet Blue, very popular.	
VERONICA DECUSSATA VARIGATA—Lovely foliage.	
VERONICA SPECIOSA—Tall growing purple flowers, very large.	
VERONICA SPECIOSA VARIGATA—Tall growing, light blue flowers.	
VERONICA IMPERIALIS—Large Amaranth, red flowers, dark green foliage.	
VERONICA LEWISII—Tall grower, lovely shade of light lavender flowers.	
VERONICA ROSEA—Fine foliage with deep rose shading to pink at lower end of flower. Globe-shaped Following Varieties Suitable for Porches and Lawns	
VERONICA GLAUCOPHYLLA—Grey foliage.	
VERONICA CUPRESSOIDES—Cypress like foliage, dark green.	
VERONICA BUXIFOLIA—Light green.	

DECIDUOUS FLOWERING SHRUBS

	Each
ALMOND—Double pink flowers, borne in great profusion before the leaves appear...	\$1.00, \$1.50, \$2.00
ALBIZZIA JULIBRISSIN—The Pink Flowering acacia, very showy shrub	\$1.00, 1.50
CAESALPINIA GILESII—Bird of Paradise, Tall shrub or small tree, flowers yellow with red St. amicus	1.00, 1.50
CARYOPTERIS INCANA (The Blue Spirea)—Small shrub, bearing blue flowers all over its branches in late summer and fall	1.00, \$1.50
CERCIS—(European Judas Tree)—Purple rose flowers, followed by pods.....	1.00, 1.50
CORCHORUS (Japanese Rose)—Double yellow, makes a very nice shrub, blooming all summer50, .75, 1.00
CORNUS ALBA SIBIRICA (Dogwood)—Medium-sized shrub, branches bright red, flowers small cream in clusters, berries light blue.....	.75c, \$1.00
DEUTZIA GRACILIS—Spikes of white flowers75, 1.00
DEUTZIA GRACILIS ROSEA—Bright pink drooping branches75, 1.00
DEUTZIA—Fride of Rochester, flowers large and double, white slightly tinged pink.....	.75, 1.00, 1.50
EXOCHORDA GRANDIFLORA (Pear Bush)—Large shrub, blooming early in spring, entire shrub covered with pure white blossoms75c, \$1.00, \$1.50
FORSYTHIA SUSPENSIA (Golden Bell)—The golden yellow flowers appear in small clusters along drooping branches75, 1.00, 1.50
FREMONTIA MEXICANA—This is a beautiful free flowering shrub with rather small, palmately lobed leaves and large yellow flowers.	\$1.00, \$1.50, \$2.00
HIBISCUS—Rose of Sharon, variety of colors75, 1.00
HYDRANGEA—Plant in partially shaded places or where they get plenty of water25, .50, .75, 1.00, 1.50
LONICERA TARTARIAN (Bush Honeysuckle)—Pink, white, red, same flower as typical honeysuckle, but followed by red berries during summer.....	1.50, 2.00
LABURNUM (Golden Chain)—Small tree, with long, drooping racemes of fragrant yellow flowers	1.00, 1.50, 2.00
LAGERSTROMIA—Grape Myrtle—Purple, Crimson, Pink	1.50
LEMON SCENTED VERBENA—Well known old favorite50, .75, 1.00, 1.50
LILACS—Single and double, lavender, purple, white, rose pink, wine red.....	1.00, 1.50, 2.00
PHILADELPHUS CORONARIUS (Mock Orange)—Sweet scented single white flowers.....	.75, 1.00
PHILADELPHUS LEMOINEI VIRGINAL—Double white flowers, very sweet scented	1.00, 1.50
PRUNUS JAP (Flowering Almond)—Small double pink flowers in great abundance	1.00, 1.50
POMEGRANATE—Double red75, 1.00, 1.50
QUINCE (Cydonia Japonica)—Scarlet flowers, an old favorite50, .75, 1.00
QUINCE—Salmon flowering, very rare75, 1.00
RIBES—Flowering Currant, red, yellow75, 1.00
ROBNTIA HISPIDA—Moss Locust deep rose; pink flowers.....	\$1.00, \$1.50
SPIREA, ANTHONY WATERER—Bright crimson dwarf, blooms all summer.....	.75, 1.00, 1.50
SPIREA VAN HOUTTEI (Bridal Wreath)—Drooping branches, covered with white flowers in clusters.	
SPIREA PRUNIFOLIA (Double Bridal Wreath)—Double white small flowers along the entire length of the branches75, 1.00

TENNYSON NURSERY CO.

	EACH
SYMPHORICARPOS RACEMOSA (Snowberry)—Native shrub of arching growth bearing small pink flowers and clusters of clear white berries at end of branches.....	50c, 75c, \$1.00
VIBURNUM (Common Snowball)—Large snow white globular flowers.....	1.00, 1.50
VIBURNUM (Japanese Snowball)—Compact shrub with medium, pure white balls of flowers, leaves strongly plaited.....	1.50, 2.00
WEIGELIA ROSEA—Trumpet-shaped flowers of rose pink in clusters along the branches.....	.50, .75, 1.00
WEIGELIA EVA RATHKE—Rich ruby carmine50, .75, 1.00, 1.50

DECIDUOUS TREES

Bare Roots in Winter—Tubs in Summer—5 to 9 feet tall.

	Each
APRICOT FLOWERING—Double pink, medium, very showy.....	1.50, 2.50
APRICOT RED FLOWERING WEEPING—Something very new	\$2.50
APPLE ATRASANGUINEA—Carmine Flowers. The most popular variety	\$1.50, 2.00
APPLE FLOWERING—Betchells large double pink flowers	1.00, 1.50
APPLE FLOWERING (Pyrus Spectabilis Kaido)—Flowers in spring; semi-double pink.....	\$1.50, \$2.00
APPLE FLOWERING (Florabunda Halliana)—Dwarf compact tree, deep rose, semi-double, produced in drooping clusters.....	\$1.50, \$2.00
APPLE FLOWERING (Parkmanni)—Tree covered in spring with single deep pink flowers.....	\$1.00, \$1.50
BIRCH EUROPEAN—Very graceful tree with silvery bark and slender branches.....	1.00, 1.50
BIRCH CUT-LEAF—Weeping, drooping branches, delicately cut foliage and silvery bark	2.50 to 3.50 up
CATALPA—Heart-shaped, very large leaves on top of the trunk.....	1.50, 2.00
CHESTNUT (Castanea Sativa)—Italian or Spanish round-headed tree of great beauty, nuts sweet.....	\$1.50, \$2
CRATAEGUS CORDATA, (Washington Thorn)—Deep glossy green foliage throughout the summer, large clusters of small intensely red berries	\$1.50
CYCAMORE—Oriental plane, similar to Maple, very fine tree.....	1.50, 2.50
CHERRY FLOWERING—Semi-double flowers of pink in clusters	3.00, 3.50
FRAXINUS (American Tall)—Quick growing tree	1.50, 2.00
HAWTHORN—Double red, pink, white	2.00, 2.50
LOCUST—Honey, thornless, spreading branches, cut leaf, very pretty tree.....	1.25, 1.50
LINDEN—Heart-shaped leaves, flowers yellow in drooping clusters, fragrant.....	2.00, 2.50
LIRIODENDRON TULIPIFERA (Tulip Tree)—Foliage alternate on long stalks, yellow flowers	1.50, 2.00
MAPLE SUGAR—Stately growth, small leaves	1.50, 2.00
MAPLE SILVER—Green above, silver beneath leaves	1.50, 2.50
MAPLE NORWAY—Broad, dark green shining leaves.....	1.50, 2.00
MAPLE PALMATUM (Japanese)—Foliage small cut leaf, highly colored.....	\$1.00, \$1.50
PLUM PURPLE LEAF—Leaves crimson, changing to dark purple, white flowers.....	1.50, 2.00
PEACH FLOWERING—Well known spring blooming trees, double white, pink, red and variegated	\$3.50
PEACH WEEPING—Something new and interesting, Standards for grafted 3 to 4 ft. high.....	\$1.50, \$2.00
PRUNUS PISSARDI—Leaves crimson, changing to dark purple; single white flowers.....	\$1.50, \$2.00
PRUNUS MOSERI—Foliage wine red; flowers fully double, deep pink.....	\$1.50, \$2.00, \$2.50
PRUNUS VESUVIUS—Foliage larger than the common purple leaf plum, rich metallic crimson color all summer.....	\$1.50, \$2.00
POPLAR LOMBARDY—Erect growth	1.50, 2.00
POPLAR SILVER—Large leaves, glossy green above and white as snow beneath.....	1.00, 1.50
SORBUS AUCUPARIA (European Mountain Ash)—Very ornamental tree with clusters of red berries	1.50, 2.00
TEXAS UMBRELLA TREE—Good specimens, form a perfect umbrella head.....	\$2.00, \$2.50
TAMARIX—Leaves a small tree or if trimmed each year makes nice showy shrub. Feathery flowers and foliage	1.00, 1.50
ULMUS ELM—American, drooping branches, tall, erect.....	.75, 1.00, 1.50
WILLOW, WEEPING	1.50, 2.00
WALNUT, CALIFORNIA BLACK.....	1.50, 2.00

EVERGREEN TREES

FOR SHADE FOLIAGE AND FLOWERS

In Large Pots, Tubs or Balled

	Each
ACACIA BAILEYANA—Very ornamental tree, bluish green leathery foliage, racemes of golden yellow flowers75, 1.00, 1.50, 2.00
ACACIA—CULTRIFORMIS—Leaves triangle shaped, thick bluish green, golden yellow flowers75, 1.00, 1.50, 2.00
ACACIA—LATIFOLIA—Leaves long, golden yellow flower.....	.75, 1.00, 1.50
ACACIA—MOLLISSIMA—Dark green, leathery foliage, flowers yellow.....	.75, 1.00, 1.50
ACACIA—MELANOXYLON—Sidewalk tree, can be trimmed into different shapes.....	.75, 1.00, 1.25, 1.50
ARAUCARIA BIDWILLI (Bunya-Bunya)—Leaves flat, sharp and glossy green.....	1.50, 2.50, 3.50
ARAUCARIA IMBRICATA (Monkey Puzzle)—Long prickly arms.....	1.50, 2.50, 4.00, 5.00
CAMPION TREE—One of our best sidewalk or lawn trees.....	1.50, 2.00, 2.50
CASSIA—Racemes of golden flowers, light green foliage, blooms all summer.....	1.00
CASURINA STRICTA—Can be trimmed many shapes if desired.....	.75, 1.00 up
CEDRUS ATLANTICA—Mr. Atlas Cedar	3.50, 4.00, 5.00 up
CEDRUS DEODORA (Indian Cedar)—A picture of grace and beauty, pyramidal in general outline, limbs droop, foliage silvery grey.....	.75, 1.50, 3.50, 4.00, 5.00 up
CRYPTOMERIA JAPONICA ("Japanese Cedar")—Foliage fine, feathery rich green in summer, purplish bronze in winter	2.00, 3.00 up
CUPRESSUS ARIZONICA (The Arizona Cypress)—Silvery blue foliage,50, .75 to 1.00 up 5.00
CUPRESSUS FASTIGIATA (Italian Cypress)—Tall slender tree of upright, pyramidal growth, height from 3 ft. to 7 ft. Balled	\$1.00 up to \$4.00
CUPRESSUS FASTIGIATA—Pot grown, 2 ft up to 5 ft.50, .75, 1.00

TENNYSON NURSERY CO.

CUPRESSUS LAWSONII (Port Orford Cedar)—Elegant drooping branchlets.....	.75, 1.00, 2.50 up
CUPRESSUS LAWSONIANA ALUMI—Of dense growth and columnar habit, with decidedly bluish metallic hue.....	2.00, 3.00 up
CUPRESSUS LAWSONIANA LUTEA ("Golden Lawson Cypress")—One of the rare golden trees.....	5.00, 7.50 up
EUCALYPTUS FICIFOLIA—Scarlet flowering gum, thick leathery leaves.....	1.00, 1.50, 2.00
EUCALYPTUS GLOBULUS—The common blue gum so extensively planted in California.....	.25 up
GREVILLEA ROBUSTA, (Silk Oak)—Leaves fern-like, flowers orange-yellow, curiously formed, very sweet scented.....	\$1.50, \$2.50
JUNIPERUS CHINENSIS—Glaucous, green foliage, a beautiful, small tree, often used for porch pots.....	2.50 up
JUNIPERUS PROCUMBENS—See Evergreen shrubs, page 5.	
JUNIPERUS HYBERNICA (Irish Juniper)—Upright, growth similar to the Italian Cypress, silver grey foliage.....	2.00 up to 5.00
JUNIPERUS PLUMOSA—Plumed Juniper, silver green in summer, changing bluish bronze in winter.....	4.00 5.00
MAGNOLIA GRANDIFLORA—Leaves very large leathery, deep glossy green. Flowers pure white, spicy fragrance.....	\$2.50, \$4.00, \$5.00
PICEA EXCELSA (Norway Spruce)—The foliage light green, the original Xmas tree of Northern Europe.....	2.50, 4.00, 5.00 up
PICEA COLORADO—Blue Spruce, silver grey foliage.....	.75, 1.00, 5.00 up
ROSE DAY—Rose pink.....	
PEPPER (Schinus Molle)—.....	.75, 1.00, 1.50
SEQUOIA SEMPERVIRENS (Redwood)—Almost too well known to need description.....	1.00, 1.50, 2.00 up
TAXUS BACCATA (English Yew)—Growth erect, similar to Italian Cypress, foliage dark green.....	5.00 up
TAXUS—Golden, brilliantly variegated in spring, it is almost solid golden.....	6.00 up
THUYA ARBOR VITAE—See Evergreen Shrubs, page 6	

TALL GROWING HEDGE SHRUBS

CYPRESS MONTEREY—The strongest growing hedge or tree; flats of 100.....	3.50
LIGUSTRUM OVALIFOLIUM—(Californian Privet)—Bare roots, 12-18 in., 75c per doz., \$4.00 per 100; 18-24 in., \$1.00 per doz., \$6.00 per 100; 24-30 in., \$1.25 per doz., \$7.50 per 100	
LIGUSTRUM (Calif. Privet)—Strong growing, bright green foliage, 2 to 3 ft.....	1.50 doz.; 10.00 per 100
LIGUSTRUM AUREUM—Golden Privet, also Silver Privet. See Evergreen Shrubs, page 6	
LONICERA NITIDA—Huckleberry foliage, close growing, better than boxwood in many respects.....	1.00, 1.50, 2.00 doz
PITTOSPORUM EUGENOIDES—Light green; small pots 9 to 12 in.....	1.00, 1.50 per doz
Larger sizes.....	2.50, 3.50, 5.00 per doz.
PITTOSPORUM NIGRICANS—Dark green; small pots 9 to 12 in.....	1.00, 1.50 per doz.
Larger sizes.....	2.50, 3.50, 5.00 per doz.
PYRACANTHA—Crenulata and Lalandi, small plants, 3 in. pots.....	.25 each; 2.50 doz.
(See Evergreen Shrubs, page 6)	
PRUNUS ILICIFOLIA—California evergreen cherry, 4 in. pots.....	.35 each; 3.50 doz.
VIBURNUM LUCIDUM—Very glossy, large foliage, large white verbena like flowers in clusters, 4 in. pots.....	.35 each; 3.50 doz.

MEDIUM AND SMALL HEDGE PLANTS

BOXWOOD ENGLISH—Small plants, 4 to 6 in.....	.75 doz.; 6.00 per 100
ROSES—BABY VARIETIES—ALSO MAKE PRETTY HEDGES (See Page 3)	
SANTOLINA—Grey border. See Perennials, page	
LONICERA PILLEATA—Small foliage, similar to English Laurel, very fine, small pots.....	1.50 doz.

CLIMBING AND TRAILING PLANTS

AMPELOPSIS VEITCHII ("Boston Ivy")—The best vine to cling to wood, brick or cement.....	.25, .50, .75
AMPELOPSIS ENGLAMANNII ("Virginia Creeper")—This variety clings but usually its own weight loosens it, quick growing.....	.25, .50, .75
AUSTRALIAN PEA VINE (Dolichos)—Fast growing vine, evergreen flowers pea-shaped, rose pink, strong plants.....	.50, .75
AUSTRALIAN PEA VINE (Alba)—Similar to above, white flower.....	.25, .50
AKEBIA QUINATA—Leaves of five small leaflets, chocolate, bell-shaped flowers in clusters, splendid climbers.....	.50, 1.00
BIGNONIA CHERERE (Mexican Trumpet Vine)—Evergreen, dark green foliage, flowers long, blood red at base.....	.50c, 75c, \$1.00
BOUGAINVILLEA BRAZILIENSIS—The flowers somewhat resemble leaves, rosy purple, needs a protected, warm position to thrive.....	1.00, 1.50 up
BOUGAINVILLEA CRIMSON LAKE—A wonderful new Bougainvillea, a brilliant brick red or crimson, exceedingly rich and brilliant. Pot grown.....	2.00, 2.50
CHOROZEMA—An odd vine and very beautiful pea-shaped flowers in clusters, yellow red.....	.50, 1.00, 1.50
CLEMATIS—In various colors.....	.75, 1.00
CORONILLA EMERIS—Yellow and gold pea-shaped flower.....	.50, .75, 1.00
FICUS REPENS—Small dark leaves, clings.....	.50, .75, 1.00
HOPS—3-in. pots.....	.25
HONEYSUCKLE—Different varieties.....	.50, .75, 1.00
IPOMOEA LEARI ("Blue Moon Flower")—Rapid grower, perennial, a wonderful bloomer.....	.50, .75
IVY, ENGLISH—Strong plants, in 4 in., 5 in. pots.....	.25, .50; very large plants.....
In flats of 100.....	4.00, 6.00
IVY, JAPAN—Green, also variegated.....	.50, .75
JASMINE—Single white, single yellow.....	.50, .75
JASMINE PRIMULINUM—Unusually double flowers, clear yellow.....	.35c, .50c, .75c
JASMINE REVOLUTUM—Single yellow flowers, strong grower.....	.35c, .50c, .75c
JASMINE—Double white, double yellow.....	.75, 1.00
LANTANA—Everybody's favorite, verbena like clusters of flowers all summer in colors of bronze and yellow, pink, white.....	.25, .35, .50, .75
MUEHLENBECKIA (Mattress Vine)—Foliage small, dense and graceful, flowers waxy white, grow in chicken wire if possible and keep trimmed.....	.25, .50
PASSIFLORA (Passion Vine)—Pink, red.....	.50, .75
PLUMBAGO CAPENSIS—Can be trained as a bush or climber, flowers light sky blue, verbena shaped, free bloomer.....	.75, 1.00
WISTARIA—Well known strong growing vine in lavender, purple, pink and white.....	1.50, 2.50 up

TENNYSON NURSERY CO.

CHRYSANTHEMUMS

Of these we have about the best collection on the Pacific Coast. During October and November they can be seen in our nursery in full bloom. Descriptions do not do them justice. At blooming time one can choose the ones they admire best or we take orders any time and deliver after May 1. One can hardly be without some of these lovely fall flowering plants.

Set out the plants about 1 foot apart in well fertilized ground. In order to give strength to the blossoms, cover the ground with a layer of an inch or two of decayed manure. As soon as the buds appear on the stems, let the largest remain and pinch off all others. For ordinary blooms do not pinch. Any other advice freely given upon request.

The following list of "Mums" has been selected from almost every variety of note for the past 25 years from all over the world. We have many others, but these listed are considered the very finest in their class and color.

There are several types in collections as follows:

EXHIBITIONS, OR LARGE FLOWERING VARIETIES.

The exhibition varieties make very large blooms if disbudded during summer. Or, if left alone they make lovely large blooms for quantity

Pot Grown, 20c each; \$2.00 per doz.

BRONZE TURNER—Buff-bronze, lower petals shaded maroon
BLACK HAWK—Large self color, deepest red reflex.
BETSY ROSS—One of the finest commercial incurved whites.
CORP. J. F. PIPER—Immense yellow (improved Col. Appleton).
CARRIE BEINCKE—A lovely variety of golden bronze reflex.
EARL KITCHENER—Amaranth silvery reverse.
F. S. VALLIS—Canary yellow.
GEORGE HEMMING—Wine red silvery reverse.
LOUIS POCKETT—Pure white.
J. R. BOOTH—A golden sport of Nagirroc. (Golden Champion).
MISS MILLICENT ROGERS—Bronzy-pink with gold shadings
MISS RITA MITCHELL—Salmon-bronze with fawn reverse; a most attractive variety.
MISS G. WOODERSON—Rosy amaranth.
MRS. H. S. FIRESTONE—Pinkish chamois buff.
MRS. J. L. DAVIS—(The Pink Turner)—Lavender pink.
MRS. DAVID L. GEORGE—Crimson with gold reverse.
MRS. G. G. MASON—Blood red gold reverse.
MRS. F. E. LEWIS—An exquisite deep crimson old gold reverse, wide petals.
MADAME. ELGIN—Bright rosy-red, (Improved William Mease).
MARION SELMER—Beautiful wine red with pinkish buff reverse.
NAPONEE—Creamy white tinged with pink, long fine twisted petals.
NAGIROC—Deep glowing orange-bronze, very long petals.
O. P. BASSETT—Dark wine red, with a silvery reverse incurved.
PRESIDENT JOHN EVERITT—Chamois buff, later bronzy-crimson.
PHYLLIS—A brilliant scarlet with green gold reverse.
REGINALD VALLIS—Japanese shaggy exhibition variety, rose color with silvery reverse.
ROSANDA—Old rose, outer petals are irregularly reflexed, while center ones incurve.
SERGEANT W. E. YOUNG—Light bronze.
THOMAS POCKETT—This is a lovely clear pink with incurving tips.
TOM LEE—Loose incurved bronzy terra cotta.
VERMONT—Deep pink.
WOODSIDE—Bright clear yellow with broad petals intertwining.
WILLIAM TURNER—Purest possible white.
WILLIAM H. WAITE—Deep warm bronze.
WILLIAM VERT—Crimson with every petal reflexing.
YELLOW POCKETT—Golden yellow.
YELLOW MRS. WM. TURNER—Light yellow.

POMPONS

The small to medium buttons or double flowers

Pot Grown, 15c each; \$1.50 dozen.

ALEXANDER DONALDSON—A lovely clear bronze.
A. L. MORAN—A brilliant flame scarlet.
ALMA—Deep rose-pink shaded white.
BABY—The smallest of all yellows. Everybody's favorite.
BABY DOLL—Button, bright yellow, pink tinge.
BECKY McLANE—Small bronze, very good.
BRIGHT EYES—Rose pink, white eye, small button.
BRONZE DOTY—Deep terra cotta, bronze gold shadings.
CRISTA—Small sulphur yellow.
CHRISTMAS GOLD—Pure yellow.
DORIS—Small bronze red.
ETHEL—Button flowers of bronze red.
FLORA—Button, bright pink.
GREYSTONE—Deep yellow flecked crimson.
HARRIET SYKES—Mauve pink.
INDIAN HILL—Deep yellow flecked with crimson.
JULIA DE WITT—Bright bronzy-amber deeper shadings.
LAUREL—Yellow and rose combination tubed.
LITTLE GEM—Small lavender pink.
MRS. PORTER—Crimson slightly tipped gold.
MRS. CHESTER ROBINSON—A lovely old rose shade of pink.
MRS. J. WILLIS MARTIN—Lovely autumn shade of bronze.
MRS. F. WILCOX—Large flowers of reddish-orange.
MRS. RONALD VOIGT—Deep lilac pink.
MARY FERGUSON—Clear light pink, flecked and flushed yellowish bronze

TENNYSON NURSERY CO.

PAULINE WILCOX—Bronze with red and gold shadings.
 ROSE TREVANNA—Flecked rose and white.
 RUBY—Deep rose-violet.
 SHAKER LADY—Bright tyrian pink.
 THELMA—Bronzy red.
 UVALDA—Pure glistening white
 WACO—Small pure white
 YELLOW CAPRICE—Pure yellow.

SINGLE CHRYSANTHEMUMS

Are similar to Shasta Daisies in size, in fact, many of the newer ones measure to four inches across
 Pot Grown, 15c each; \$1.50 dozen.

BERTHA FAIRS—Brilliant rose pink.
 BRONZE BUCKINGHAM—Glowing bronze.
 BRONZE MOLLY—Clear tawny yellow.
 BESSIE LA ROCHE—Brazil red, as flower ages it shades to crimson bronze.
 CEDIE MASON—Bright crimson.
 CHARLOTTE WAITE—Deep rose pink, yellow center.
 DOROTHY DUGAN—Pure white.
 GLORIANA—Bronzy amber pink shadings.
 GODFREYS BRONZE—Scarlet bronze, shiny yellow zone.
 GOLDEN SPRAY—Brilliant yellow.
 H. MARIE TOTTY—Brilliant crimson, bright yellow zone.
 IDA CATHERINE SKIFF—Brilliant bronzy amber.
 JULIA—Amaranth pink, silvery reverse white zone.
 LADY ASTER—Deep crimson.
 MISS RUTH C. DENNISON—Buttercup yellow.
 MRS. A. PHILLIPS—Deep lavender.
 MRS. E. D. GODFREY—A very fine pink.
 MRS. C. H. McKINNEY—Bright Buttercup yellow.
 MRS. W. E. BUCKINGHAM—Good pink, best known single.
 MRS. EDWARD HARDING—A new shade, bright claret rose, golden center, spicy fragrance.
 MARGARET W. WANNER—Cadmium orange, suffused deep amber bronze.
 PORTIA—Deep salmon bronze, and bright flame.
 RICHARD DELAFIELD—Novel deep terra cotta with scarlet shades.
 ROUPEL BEAUTY—True American beauty in color, yellow center.
 RUTH S. BERGIN—Bright amaranth, straw yellow zone.
 RUTH E. ADAMS—A beautiful bronzy old gold of very distinct appearance.
 ROSE F. RICA—Clear pink with brilliant golden center, petals have a frilled effect.
 STANLEY VEN—Lovely rose color.
 VICTORIA MORI—Deep red with a clear gold zone in the center.

JAPANESE ANEMONE CHRYSANTHEMUMS

An entirely distinct type which is readily identified by the large center cluster composed of a myriad of smaller short petals.

Many of the varieties we list can be grown five or six blooms on one plant five to seven inches across. Recent introductions of anemone flowered type are marvelous for their beauty.

Pot Grown, .15 ea.; \$1.50 doz.

ADENLAIR—The predominating color is shell pink with a creamy cast center of cushion.
 BERNEITA—A beautiful anemone, ray florets shell pink and a perfect white cushion.
 BUFF QUEEN—Color of the ray and disc florets are both buff, very large cushion.
 CLEMENCIA—Deep pink shading to deeper pink.
 COED—Clear pink with tinge of yellow at centre.
 CADET—A very fine bronze, of medium size.
 ELEANOR—Enchantress pink.
 EUGENE LANGUELET—Deep golden yellow, most popular small variety.
 GOLDEN PHEASANT—Bright yellow, has the appearance of having been hand embroidered with golden silk.
 GOLDEN LYDIA THOMAS—Medium shade of yellow, small flower, blooming around Thanksgiving.
 GOLDEN STATE—A self colored light yellow, long florets.
 HUNO—Deep lilac, shading to white.
 MADGE—Small variety ray florets cream cushion lemon.
 APPLE LEAF—Bronze, tall flower.
 MARIETTA—A very artistic variety. Color, soft pink throughout with a very full cushion.
 MRS. A. G. WILSON—Glistening pure white with pale yellow centers, the aristocrat of whites.
 MRS. OWEN WINSTON—Deep golden yellow, of medium size.
 MISS HELENE BORMAN—Terra Cotta bronze, with loose crested center of pale buff.
 NOKOMIS—Ray florets bright amaranth, and a low white cushion, a new color in the anemone section.
 PRINCESS ILEANA—Bright pink ray florets with a slight violet cast, large yellow cushion.
 ROSE ROYAL—Rather distinct in color, being a violet rose throughout.
 RED BIRD—Deep ruby red, with green, golden-crested center.
 SPOTLIGHT—Crimson terra cotta ray petals, with a low bright yellow cushion.
 SONORA—Cushion of light yellow, ray florets white shaded pink.
 SURPRISE—Rose pink.
 TRIUMPH—The long ray florets are golden brown, with a large cushion of bright yellow.

TENNYSON NURSERY CO.

CURIOSITIES

Many of the varieties in this section originated in Japan where they are considered the most beautiful of the entire chrysanthemum family.

- 15c each, \$1.50 per doz.
- AMATERASU—THE SUN GODDESS—Yellow long twisted petals.
- BENTON—Quilled petals, green gold at center with blood red tips, peculiar shadings.
- FUGI—The Wistaria—Pale lavender needle-like petals.
- JUJITSU—Similar to peppermint sticks, petals half white and half pink.
- LAWRENCE—Small thread-like thistle. Fragrant, white and lavender.
- PETITE MARCEL—Pink, fine long petals.
- PINK BEAUTY—Deep pinkish lavender shading to pale lavender at the tips of petals.
- QUILL—Long quill florets standing out from the center of bloom, White, Pink.
- SAM CASEWELL—Pink, fine long petals.
- SPIDER—True to the name. They look like large spiders with many legs. White, Straw, Red.
- TACHIBANA—Looks exactly like a mass of corn silk, certainly no one would thin it a Chrysanthemum.
- WILLIAM FALCONER—Red buff bronze ostrich.

SMALL GROWING VINES OR CREEPERS

| VINCA (Perewinkle)—Variegated foliage, light blue flower, nice for covering stumps, posts, rocks or faucets, etc. | .10, .25 |

HARDY WATER PLANTS

Our hardy water plants are priced potted and well established. All you do is place them in the water, and they will do the rest. If desired we have most kinds listed unpotted at reduced prices.

- ARROWHEAD, GIANT—(Sagittaria Sagittifolia)—Distinctive leaves sharpened as name indicates, spikes of white flowers, growth 1 to 3 feet
- CAT-TAIL—(Typha Latifolia)—One of the native swamp plants. Also known as REED MACE, 4 to 6 feet
- IRIS PSEUDACOROUS—(Yellow Flag)—Sword leaved plant bearing broad yellow flowers of the Japan iris type, very attractive, 2 to 4 feet
- PARROT FEATHER—(Myriophyllum Proserpinacoides)—Besides being a splendid water pond plant, it is very much used in a water tight hanging basket, also for trailing over fountains.
- PICKEREL RUSH—(Pontederia Cordata) — The blue flowers of this plant have made many friends, blooms freely, total growth 2 feet
- WATER LILIES—Hardy Varieties, White, Pink, Yellow, Crimson, Blue.....
- WATER HYACINTH—(Eichhornia Crassipes Major)—Flowers delicate lilac rose in trusses like a Hyacinth
- WATER POPPY—(Hydrocleis Nymphaoides)—The leaves float upon the surface of the water, yellow flowers similar to the California poppy
- LUDWIGIA MULERTII—The small ovate leaves are green above and pink on the under side. Grows mostly submerged.
- SUBMERGED or OXEGENATING PLANTS—
- ANACHARIS, COON TAIL, HETERANTHREA, SAGITTARIA, VALLISNERIA, \$.15, .25, .35
- GOLD FISH AT MARKET PRICES
- WATER SNAILS—
- JAPANESE, AFRICAN, BLACK RAMSHORN, CORAL. These snails are very useful in removing the algae or green scum that form in the water and thus help to keep the water clear

THE ROCK GARDEN

We have a general assortment of Cactus, Agaves and other succulent plants suitable for desert or rock gardens

CARNATIONS — EVERBLOOMING VARIETIES

- Potted \$.15 each, \$1.50 per dozen
- BELLE WASHBURN—Large bright scarlet flowers, finely fringed and very fragrant.
- BENORA—Clear white penciled with bright red, flowers large, freely produced.
- C. W. WARD—Immense in size, beautiful pink shade, full center and free bloomer.
- DONALD—Best glossy dark crimson Carnation grown up to date.
- MORNING GLOW—Beautiful light pink flower, shading to a lighter pink, strong stems.
- MAIN SUNSHINE—Large flowers of a clear golden yellow, free bloomer, strong stems.
- LADDIE—Glistening salmon pink, flowers enormous, fragrance and all-around merit.
- SUNSET—A superb novelty. The broad saw-edged golden yellow petals have wide carmine stripes running through the center, and are also flaked with carmine.
- CHABAUDS EVERBLOOMING—Seedlings produce a fair size flower very young and continue blooming indefinitely, plants from boxes in separate colors, Rose pink, Cardinal red, Yellow, Flesh pink, also White. Strong plants.
- DIANTHUS PLUMARIUS—(Clove Pink)—We have a very fine mixture of double flowered sorts. Foliage makes a very pretty border: flowers delightfully clove scented. Doz. .50, \$3.00 per 100

FERNS

- We can supply a lovely collection of hardy ferns for rockeries or shady places from \$5.00 per doz. up
- BOSTON (Sword Fern)—For indoor use.....
- WOODWARDIA—Well known hardy fern for shady places. Clump

TENNYSON NURSERY CO.

FLEUR-DE-LIS TALL LARGE-FLOWERING BEARDED FLAG IRIS CULTURE AND PLANTING

Do not use manure. Lime the thoroughly prepared bed well and give an annual top-dressing of lime in the Fall, with a top-dressing of bonemeal in early Spring. Do not plant in deep shade. Open woodland paths, if well drained, make admirable locations for broad masses of Iris.

Plant 3 feet apart and wait for clumps to form; or 1 foot apart for more immediate effect. Barely cover the rhizomes. Planting may be done at any time the ground is open, but the ideal time is through the months of July, August and September. The new growth is then active and the root quickly establishes itself for blooming next season. Late plantings should be mulched with leaves or straw, not manure.

If you have such places to cover and protect, write us for suggestions. The vineyardists of Southern Europe discovered years ago that there is no "wash" in a soil full of Iris roots.

Between Tulip time and Rose time the mainstay of the garden for masses of color is found in the modern forms of the bearded Iris. The all-pervading loveliness of a garden well planted with the choicer forms of the older and the newer introductions is breath-taking. In no flowers are returns surer or more satisfying.

In the description, "S" is used to designate the standards or upright petals; "F," the falls or drooping petals.

IRIS Each 75c

CONQUISTADOR—Lovely, large deep mauve to light violet flowers.
AMBASSADEUR—S-smoked bronze, F-dark velvety maroon, considered one of the best.
LEVERRIER—S. Chinese violet. F. Pansy violet long and drooping, bright unusual

IRIS NOVELTIES AND SELECT VARIETIES

35c Each, 3 for \$1.00, \$3.50 per Dozen

ANNA FARR—S. F. Pure white edged lavender blue, large flower of unusual substance.

AMBIGU—S-reddish-purple, F-lighter

BALLERINE—S-light blue-violet, F-deeper than standards.

BLUET—A very appealing blue.

CAMELOT—Warm white edged pale violet

DAJAZET—S-beautiful bronzed rose, the falls darker than the standards

DREAM—A delightful rose pink self color of perfect form.

DORA LONGDON—S-honey-yellow, F-pale rose purple

LADY FOSTER—Very large, broad petalled, light lavender violet flower

LENT, A. WILLIAMSON—S-lavender violet, F-velvety pansy-violet, large richly colored

LORD OF JUNE—Free blooming, huge flowering Iris in pale blue

MADAME CHOBOUT—A lovely plicata, its yellow ground flushed red and veined brown suggesting apricot tints

SYBIL—S-Blush; F-Bright rosy red

PALMS, \$1.00 UP TO \$10.00

WASHINGTONIA—California Fan Palm.

CHAMAEROPS EXCELSA—Small Fan Palm.

PHOENIX CANARIENSIS—Date Palm.

DRACAENA INDIVISA—Sword Leaf Palm.

YUCCA (Adams Needle)—Very sharp points, stiff foliage variegated.

KENTIA—House Palms

2.00 up

TENNYSON NURSERY CO.

"DAHLIAS"

Cultural Directions

Although Dahlias are easily grown in any good garden soil they respond readily to good cultivation. Dig a hole about 18 inches deep and fill up with old stable manure one-third, and good soil two-thirds, plant the tuber about four inches deep (slanting), then water well. No more water is necessary until the green sprout is showing above ground, then never allow them to become dry. A dusting of air slacked lime can be given then every three or four evenings apart after planting, as slugs and snails are very fond of the tender shoots. The large flowering varieties can be disbudded for larger blooms, a small amount of growmore or gaviota fertilizers can be applied each month. Cultivate the soil around them freely. There are several classes of Dahlias, the principle ones are as follows:

CACTUS—True fluted type. Flowers fully double, floral rays or petals long, narrow, incurved or twisted.
AMERICAN CACTUS—Petals broader, usually shorter than the Hybrid Cactus.
DECORATIVE—Double flowers, full to the center, flat rather than ball shaped, broad, flat loosely arranged floral rays with broad points or rounded tips.
HYBRID CACTUS—Flowers fully double, floral rays, broad, flat, recurved or twisted.
PEONY FLOWERED—Semi-double, having two, three or more rows of broad, flat, loosely arranged rays or petals.
SHOW—Globular or ball shaped rather than broad or flat, full to the center.
HYBRID SHOW—Same form as shows, but larger, more flatly globular and more loosely built.

A. C. signifies American Cactus. C. Cactus; D. Decorative. H. C. Hybrid Cactus.
 H. S. Hybrid Show. P. Peony. S. Show.

	EACH
AMBASSADOR. H. C.—Soft shade of canary yellow shading to rich salmon-pink at tips of petals.....	\$1.00
AL KORAN-D.—A beautiful amber yellow; splendid garden variety; blooms continually.....	.75

Snarol

The National Pest Control

1-lb. Carton	\$.35
3-lb. Carton	.75
15-lb. Bag	.95
50-lb. Bag	8.50

We prune all fruit trees at time of purchase so they do not need any after pruning until the following winter, at which time, if you desire, we send a man out to prune and spray.

Antrol jars protect your home from ants effectively, safely and permanently. They stand on guard like sentinels.
